ABOUT THE INSTITUTE

Government Engineering College Bilaspur, is a provider of University level technical education and research in Chhattisgarh state. The institute is affiliated to Chhattisgarh Swami Vivekanand Technical University (CSVTU), Bilai and approved by All India Council for Technical Education (AICTE), Delhi. Since its inception in 1964, college is a dynamic, fast growing educational institution. College provides a safe and supportive environment to foster the academic development and welfare of students. Imbued with the message of “Yogah Karmasu Kaushalam”, the institute is offering a flexible and real world-based approach in education. Institute has 7 UG courses and 4 of its courses are NBA accredited.

ABOUT THE DEPARTMENT

Civil Engineering Department is NBA accredited and one of the oldest department in the institute. Department aims at imparting the state-of-the-art knowledge and skills to the students in the field of civil engineering and to foster the culture of innovation and research by providing creative learning environment to the students for excellence in technical education.

OBJECTIVES

The objective of this workshop is to train the faculty members, research scholars, young scientist and post graduate students of various organizations in the field of Infrastructure engineering and practical use of infrastructure related to civil, mechanical, electrical, electronics, mining, computer science & information technology. The objective of the programme is also to provide a platform for interaction and exchange of ideas on recent trends and future advancement in the field of Infrastructure engineering.

WHO SHOULD ATTEND

Faculty members of AICTE approved engineering college and polytechnics, Ph D and M Tech scholars, field engineers.

COURSE DESCRIPTION

The workshop is proposed to give a thorough advancement and real time implementation in the field of Infrastructure engineering. Distinguished features of this program include expert talk on technological advancement, hands-on training and laboratory session. The proposed workshop will provide opportunity to know the latest advances, associated problems and measures to overcome them.

COURSE CONTENTS

- Transportation infrastructure
- Earth quake resistant civil infrastructure
- Water resources infrastructures
- Water, wastewater & Environmental infrastructures
- Agricultural infrastructures
- Steel Producing infrastructure
- Power generation related infrastructures
- Telecommunication infrastructures
- Mining related infrastructures
- Information technology related infrastructure
- Town and country planning infrastructure

IMPORTANT DATES

Last date for applying Online: **10/10/2020**

Confirmation of Participation: **11/10/2020**
